				Low
				Medium
			High	

The target gross yield for the portfolio will be in the range of 17% – 21% and the portfolio duration will be 3 – 4 years.

Orion PMS focusses investing in Real Estate backed debt with a yield of around 18% - 21%, Structured Mezzanine debt with a yield of around 16% - 20% and Securitised debt with an yield of around 14% - 16%. The tenure of these instruments would be around 1 – 4 years.

**The target gross yield is a mere statement of expectation of portfolio manager based on reasonable assessment of current scenario. Actual returns may vary from the targets stated above.*

Transaction Sourcing and Portfolio Customization:

- Primary sourcing: The portfolio will be the primary investor in transactions sourced by Scient. There may be other co-investors in the transactions.
 - ❖ The terms offered to the portfolio investors may be superior to those offered to co-investors
- Secondary sourcing: The portfolio will also include high yield debt instruments bought in the secondary market from NBFCs, institutional investors and HNIs
- Portfolio building for individual investors
 - ❖ Using the flexibility offered by the PMS vehicle, the investment manager will build customized portfolios for investors depending on their time of entry, preference or aversion to a specific type of high yield debt etc.
 - ❖ The investment into the portfolio is open-ended. Depending on the prevalent transactions at the time of investment, the portfolio of the investor will be structured, always keeping in mind the broad guidelines of overall allocation
 - ❖ To enable good diversification, sometimes investors' portfolios can be rebalanced internally (at fair values)

Suitable for:

This product is suitable for investors seeking medium term capital appreciation with regular income. Orion is ideal for investors wanting to hold a fixed income portfolio with moderate to moderately high risk appetite expecting high returns. The Portfolio would provide better risk adjusted returns as compared to singular investment in real estate instruments.
